

OPEN IFC VIEWER

To complement its IFC SDK, ODA offers a professional-grade IFC viewer called **OpenIfcViewer**

FIRST

First to support new IFC versions and experimental IFC features from bSI

FAST

Optimized for large files. Powered by Visualize from ODA

FREE

Provided free of charge as a service to the AEC industry

VERSION AND FORMAT SUPPORT

Official IFC Versions and Release Candidates

Supports all versions of IFC from 2x3 through 4.3 RC1.

IFCZIP

Transparent support for compressed IFCZIP files.

BCF

Integrated support for BIM Collaboration Format (BCF).

ADDITIONAL FEATURES

Collision Detection

Perform collision detection on all or part of a model, isolate collisions and export results to BCF

PDF Publishing

Publish any IFC model to 2D or 3D PDF. Flexible and fully customizable

Multiple Models and Different Formats

Insert multiple IFC models into a single view

Visit OpenIfcViewer.com for more details

COMPLETE INTEROPERABILITY
FOR CAD & BIM

Open Design Alliance is a non-profit technology consortium of 1200 member companies, working together to develop solutions for complex interoperability challenges.

SDKs for professional software development

DGN	Revit files
DWG	Navisworks files
IFC	3D PDF
